AMENDMENTS TO THE SPECIFICATION

Please add the following paragraph after the paragraph ending on page 2, line 6:

--Further scope of the applicability of the present invention will become apparent from the detailed description given hereinafter. However, it should be understood that the detailed description and specific examples, while indicating preferred embodiments of the invention, are given by way of illustration only, since various changes and modifications within the spirit and scope of the invention will become apparent to those skilled in the art from this detailed description.--

Please add the following paragraph after the heading beginning on page 2, line 8:

--The present invention will become more fully understood from the detailed description given hereinbelow and the accompanying drawings which are given by way of illustration only, and thus are not limitative of the present invention, and wherein:--

Please amend the paragraph beginning on page 2, line 28, as follows:

--The common core network allows roaming within a homogeneous radio communication network and between heterogeneous radio communication networks while ensuring service quality, and in one area, enables Internet access via a gateway router and access to a base station via a base station interface. A plurality of common core network structures networks, each of which is the same as that residing in one area, are each arranged in a corresponding area via the Internet.--
